SPONSOR OPPORTUNITIES

Laravel Live
Denmark 2026

LARAVEL LIVE DENMARK

Laravel Live Denmark began in 2024 as the first Laravel conference in the Nordics, and it quickly found its place in the community. We welcomed over 200 developers that first year, and by 2025, the event grew to 250 attendees, all coming together in Copenhagen for two days of talks, learning, and connection.

In 2026, we're ready to welcome up to 350 developers for our biggest edition yet. Driven by great speakers and a welcoming community, Laravel Live Denmark is becoming a key destination for Laravel developers in Europe.

Laravel remains the most popular PHP framework, trusted by developers worldwide to build modern web applications.

LARAVEL DENMARK NON-PROFIT ORGANIZATION

The conference is held by “Foreningen Laravel Denmark,” a non-profit organization aiming to expand the knowledge of the PHP framework in Denmark through meetups and conferences.

All organizers are volunteers and no-one is getting paid. Any profits from the conference, will be used for Laravel related events.
